About me

I'm a Fullstack Developer with a background in accounting and business systems. I build web applications using JavaScript, React, Node.js, and MongoDB, and I'm currently in my third year of university studies in Accounting, alongside studies in Management Information Systems. My experience blends technical development with analytical thinking, supported by a strong foundation in financial logic and structured problem-solving. I enjoy working in organized teams, solving problems with precision, and learning new tools and languages. I'm open to international opportunities and passionate about sustainability, communication, and continuous improvement.

Education & Training

Licence in Accounting (ongoing) │ institut supérieur de gestion │ 15/09/2023 - Current │ gabes, Tunisia

- Studied financial reporting, cost accounting, and internal auditing principles

Work experience

Web application developer │ 01/10/2023 - Current │ gabes, Tunisia

- Fullstack developer: JavaScript, React, Node.js, Next.js

- Built responsive UIs and secure, scalable backend systems

- Applied accounting & IT management for analytical, structured solutions

Customer service representative(intership) │ Bank of Tunisia │ 01/07/2025 - 31/08/2025 │ gabes, Tunisia

Assisted in preparing loan applications and ensuring document compliance. Explained loan conditions to clients under supervision, followed up on pending requests, and updated records. Supported customer inquiries and observed eligibility evaluation processes.

Certifications

Responsive Web Design │ freeCodeCamp │ online │ 30/06/2025

Comprehensive training offered by freeCodeCamp, covering the basics of web design, HTML, CSS, Flexbox, Grid, and responsive design principles. Certificate earned after over 300 hours of practice and completed projects.

https://freecodecamp.org/certification/louayawadh/responsive-web-design

Data analysis: hypothesis testing │ the open university

I completed training in statistical hypothesis testing, where I gained practical skills in applying one-tailed and two-tailed tests, interpreting significance levels (alpha), and reporting exact p-values. I also learned how to test means and proportions using spreadsheets as a tool for data analysis and decision-making.
